

The Owlypia's Approach to Lifelong Learning

Soft Skills Development Program

Why Soft Skills Matter

Academic knowledge alone is no longer enough.

1

Students need critical thinking, creativity, emotional intelligence and collaboration.

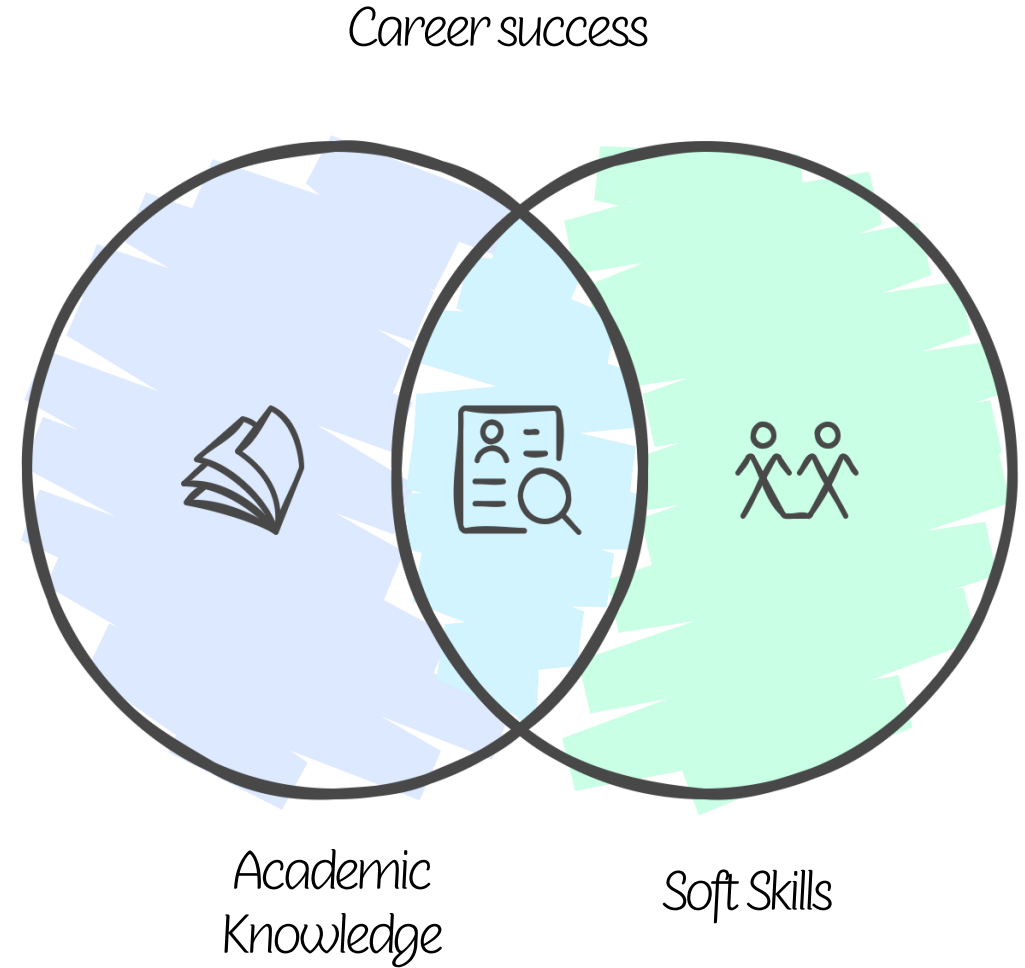

2

75% of career success is **linked to soft skills** (a 2021 study by Growth Engineering of Fortune 500 CEOs).

3

Schools must bridge the gap between classroom instruction and real-world demands.

4

GLOBAL ORGANISATIONS that promote soft skills

Innovate • Communicate • Adapt

Imagine a future where success is not
defined as just academic achievements
or technical skills!
